Key Metrics

Metric	Value
Total Revenue	6737218987.11

Dataset Overview

- File: store_retail_operations
- Records: 423,325 | Fields: 17
- Missing values: Yes
- Duplicate rows: 0

Fields

Store (int64), Date (object), Temperature (float64), Fuel_Price (float64), Markdown1 (float64), Markdown2 (float64), Markdown3 (float64), Markdown4 (float64), Markdown5 (float64), CPI (float64), Unemployment (float64), IsHoliday_Features data set (bool), Dept (float64), Weekly_Sales (float64), IsHoliday_sales data-set (object), Type (object), Size (int64)

Field Semantics

Field	Inferred Meaning	Confidence
Store	Store/location identifier	high
Date	Date field	high
Temperature	External economic/environmental factor	medium
Fuel_Price	External economic/environmental factor	medium
Markdown1	Unknown — review needed	low
Markdown2	Unknown — review needed	low
Markdown3	Unknown — review needed	low
Markdown4	Unknown — review needed	low
Markdown5	Unknown — review needed	low
CPI	External economic/environmental factor	medium
Unemployment	External economic/environmental factor	medium
IsHoliday_Features data set	Unknown — review needed	low
Dept	Category / department	high
Weekly_Sales	Weekly sales figure	high
IsHoliday_sales data-set	Unknown — review needed	low
Type	Type / classification	medium
Size	Store size / square footage	high

Data Quality

[WARN] Missing values in Markdown1

270892 rows (64.0%) missing

Affects: Analysis involving this field will have reduced sample size

[WARN] Missing values in Markdown2

310793 rows (73.4%) missing

Affects: Analysis involving this field will have reduced sample size

[WARN] Missing values in Markdown3

284667 rows (67.2%) missing

Affects: Analysis involving this field will have reduced sample size

[WARN] Missing values in Markdown4

286859 rows (67.8%) missing

Affects: Analysis involving this field will have reduced sample size

[WARN] Missing values in Markdown5

270138 rows (63.8%) missing

Affects: Analysis involving this field will have reduced sample size

Key Findings

Store Top/Bottom by Type

Evidence: Top: A (4,702,791.00), Bottom: C (1,667,939.00). Range ratio: 2.8x

Interpretation: Type is a strong differentiator for Store. The gap between top and bottom segments suggests significant optimization opportunity.

Action: Investigate what drives success in top Type segments and apply best practices to lower performers.

Temperature Top/Bottom by Type

Evidence: Top: A (13,090,521.77), Bottom: C (2,892,144.44). Range ratio: 4.5x

Interpretation: Type is a strong differentiator for Temperature. The gap between top and bottom segments suggests significant optimization opportunity.

Action: Investigate what drives success in top Type segments and apply best practices to lower performers.
